

Access Control/CCTV Service Engineer

Job Type: Permanent
Location: London
Salary: Circa 30K +Benefits

If you are an experienced security systems engineer seeking a new challenge working with a NSI Gold Installer where future opportunities are endless:

Due to ongoing growth we require additional engineers to join our qualified team. The successful candidate will have electronic security experience and be able to work on large installations. Ideally you will have strong experience with Access Control, CCTV and Gates/Barriers. We cover the whole M25 area and candidates should be prepared to work within Central London on a regular basis.

Experience Required:

- Worked within the Security Industry for at least three years (on a consecutive basis)
- Hold a professional qualification or have good practical experience
- Worked with CCTV, Access Control, Door Entry and Gate Automation
- Hold a Driving Licence
- Experience on working on a wide range of contracts, commercial, public sector and private
- Worked on medium to large scale installations
- Have a professional manner

Access Control Experience Required:

- Worked on PC Based systems, experience with Northern access control would be an advantage
- Worked on Standalone Access Control
- Automated vehicle barriers/gates and pedestrian turnstiles, experience working with FAAC would be an advantage
- Video Door Access experience using BPT

CCTV Experience Required:

- Worked on simple stand-alone to multi-function controllable PTZ's and Domes
- Worked with Black & White cameras and the ability to switch to colour or automatic switching
- Digital Recording
- Worked with a wide product range
